**HIGHWAY DRIVEN.**

## STANDARD FEATURES

### AIR GAUGE BOX

The dump valve and air gauge is enclosed in an aluminum box with window.

### ALUMINUM CROSSMEMBERS

4" aluminum crossmembers are huck-bolted to the top flange extrusion and bolted to the side rail. 12" spacing is standard, with a 16" spacing option available. A coil package option is available.

### ALUMINUM FLANGES

Extruded Aluminum 6061-T6 top & bottom.

### HENDRICKSON SUSPENSION

The Hendrickson INTRAAX suspension combines the axle and suspension as a fully integrated unit.

### CAMBERED MAIN BEAM DESIGN

Camber is built into every beam to offset beam deflection under load.

## OPTIONAL FEATURES

### ALUMINUM FILL PLATE

Aluminum fill plate in bumper with Lode King logo.

### DISC BRAKES

Hendrickson MAXX22T air disc brakes.

### BOLT-ON BUMPER

The bolt-on rear impact guard meets or exceeds all regulatory requirements of both US DOT and Transport Canada.

### SLIDING AXLE

Optional front and rear sliding axles can be set at two different positions, allowing for greater flexibility in meeting weight regulations in different jurisdictions. Full axle slide available on flat decks.

### TARP ROPE HOOKS

Tarp rope hooks can be installed around the perimeter of each trailer, beneath the deck to secure load coverings.

### IN-LINE AIR FILTER

The in-line air filter protects the air system from road debris build-up. The filter is serviceable and replaceable. Extends the duration of the ABS warranty.

### PLUMBING & WIRING

Air and electrical lines from the front of the trailer are routed above the crossmembers, under the flanges and secured in the floor cavity.

### STAKE POCKETS

Pipe spools are positioned between the stake pockets to help prevent damage from side-loading equipment. Each stake pocket and pipe spool is a tested and approved tie-down location, complying with Transport Canada requirements.

### UPPER COUPLER

The upper coupler design is one of the most robust in the industry.

### WINCHES

Sliding winches are located on an LL winch track. On drop decks they are located to prevent interference with toolboxes or tires.

### TOOLBOXES

Aluminum toolboxes are available in a variety of sizes.

### LED LIGHTING PACKAGES

Three unique TRUCK-LITE LED lighting packages available, including rear strobe lighting and aluminum pull-out lighting.

### COIL PACKAGE

The addition of stub crossmembers between the main beams in specific locations.

### LOAD BUNKS

Load bunks are matched to the upper deck to allow level-loading,

### TIRE INFLATION SYSTEM

Hendrickson TIREMAX PRO.

### SOLID FOUNDATION

We've been proud to call Winkler, Manitoba home since 1980. Lode King has grown from humble beginnings to become Western Canada's leading commercial trailer manufacturer. We're building on that foundation, continually growing and innovating as our products take on new challenges year after year. Commitment to these founding principles and our dedication to future growth underpin our company's culture and products.

### MADE IN CANADA

Lode King understands our country's diverse and sometimes harsh landscape. From the majestic Rockies to the big-sky prairies, we're honoured to be Western Canada's largest commercial trailer manufacturer. Our trailers are built to withstand Canada's ever-changing, severe climates, while our dealer network conveniently spans coast to coast, serving our customers with a wide variety of product options.

### CRAFTSMANSHIP

Built tough, our no-compromise quality standards are unmatched in the transport trailer industry. Manufacturing within ISO 9001 international standards, we source and use the best materials available, from initial production steps to final finishing. Our goal is always to build a trailer that's engineered to last, whatever our customers put it through. Every trailer is inspected and certified for quality assurance.

### PROUD CUSTOMERS

Lode King trailers are built for drivers who demand more in terms of style, technology, durability and features. Our customers head out on the open road with a sense of pride and have become our ambassadors at large. We never forget that every trailer has our name on it, so we maintain and value the relationships we've formed with fleet operators over the past 40-plus years.

### CUTTING EDGE TECHNOLOGY

The latest in automated laser cutting, bending and welding technologies provide the precision and consistency needed to produce top quality components. It's innovative tools like these that help push our products to new heights and make our vision to create the best trailer possible a reality. In our world-class paint facility we also push the boundaries of the transport industry's finishing standards.

### LONG TERM RELIABILITY

Long term in our industry means more to Lode King than we can possibly convey. Our unwavering quest to produce the highest quality trailers has turned into decades of success for our customers. Knowing our durable trailers will withstand heavy use for years to come helps our customers purchase in total confidence. Our premium quality product means minimal downtime, which leads to more time out on the road, getting the job done.

### PROUD, DEDICATED AND LOYAL TEAM

Pride, dedication and loyalty are just part of what drives the team at Lode King Industries. We are committed to maintaining one of the cleanest and safest workspaces around, and place a high level of importance on training and development. This means that our employees are able to develop their skills, which provides both security and opportunities for career development within our growing company.

### CUSTOMER SERVICE: A LODE KING PRIORITY

We know exactly how important communication is when you're miles away from home. Technology and customer relations play a large role in how we provide solid service before, during, and after your purchase. As an integrated customer service team working together with our dealer network, we work hand-in-hand with our customers, pro-actively meeting their needs and maintaining the pride they feel in pulling a Lode King trailer.
